- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

permitting electronic submission of responses.

Overview of this information collection:

- (1) *Type of Information Collection:* New collection
- (2) *Title of the Form/Collection:* Census of State and Local Law Enforcement  
Agencies Serving Tribal Lands /part of the State and Local Justice Agencies  
Serving Tribal Lands collection
- (3) *Agency form number, if any, and the applicable component of the Department of  
Justice sponsoring the collection:* The form number for the collection is  
SLJASTL-15b. The applicable component within the Department of Justice is the  
Bureau of Justice Statistics, in the Office of Justice Programs.
- (4) *Affected public who will be asked or required to respond, as well as a  
brief abstract:* Law enforcement agencies were asked on the Census of  
State and Local Law Enforcement Agencies (CSLLEA) whether they  
provided services to tribal lands. All agencies that responded yes will be  
asked to respond. Additionally, because the CSLLEA did not have a full  
response, any law enforcement agencies contiguous to tribal lands that did  
not respond to the CSLLEA will also be asked to respond. The Census of  
State and Local Law Enforcement Agencies Serving Tribal Lands is the  
first national collection to gather data on the characteristics, functions, and  
resources of law enforcement agencies that provide services to tribal

- lands.
- (5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 1,600 law enforcement agencies will be asked to respond to the survey. About 54% of these respondents will be ineligible to complete the survey instrument. For these entities the burden will be less than 5 minutes. Of the remaining 740 law enforcement agencies, we expect a 95% response rate or 703 agencies. It will take the average interviewed respondent an estimated 60 minutes to respond and 15 minutes for any response verification.
- (6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 879 total burden hours associated with this collection.
